

Student Spaces

Proposer: Rafael Escardo Espejo

Secunder: Annie Warner

This Union Notes:

1) That there is a higher demand than offer availability of the Stretch space. The space is not only needed by Clubs and Societies but also special events such as the ones the bar host. In addition, the rent of a Secondary training space for our Dance Club takes 40 pounds weekly from the SU.

This Union Believes:

1) That if there is space available within campus and owned by the school it must be used to its highest efficiency. The proper use of the University resources is essential for the school to prosper and grow.

This Union Resolves:

1) That space and resources from the university must be available to the students efficiently, therefore we would like to request the availability of the spare hours from room RHB 253, which is a proper dance studio space with wooden floor, mirrors on the wall and a dance bar for classic dance. Currently the room is often employed during the morning and has about 3 afternoons available from 5pm, which is the most demanded time at the SU Stretch.
